ANSWERS FOR ABOVE QUESTIONS

1. 8 – the series is made up of odd numbers.

2. Snake – it has no legs

3. 9 – the different between numbers in the series increments by 1 each time: 29 minus 27 is 2
27 minus 24 is 3
24 minus 20 is 4
20 minus 15 is 5
The last number in the series is 15 minus 6 = **9**

4. 15264 – reversing the order of the letters in PEACH gives you HCAEP. So, reversing the numbers 46251 gives you 15264.

5. 312 - This series of numbers alternates between multiplying by 5 and adding 2: $2 \times 5 = 10$
 $10 + 2 = 12$
 $12 \times 5 = 60$
 $60 + 2 = 62$
 $62 \times 5 = 310$
Finally, $310 + 2 = 312$

6. A - The three balls form a square with the missing ball. The balls are brighter towards the corners of the square.

7. True

8. 128 – this series is based on multiplying by 2 each time: $2 \times 2 = 4$
 $2 \times 4 = 8$
 $2 \times 8 = 16$
 $2 \times 16 = 32$
 $2 \times 32 = 64$
Finally, $2 \times 64 = 128$

9. 24 – if Mary is currently 16, her brother is currently 16 divided by 4 = 4. This makes Mary 12 years older than her brother.
So, Mary will be double her brother's age when he is 12.

10. 225 – in this series, the numbers are squares: $11 \times 11 = 121$
 $12 \times 12 = 144$
 $13 \times 13 = 169$
 $14 \times 14 = 196$
The next number in the series would be $15 \times 15 = \mathbf{225}$
